1 FOTA and SWM Solution Products

The FOTA and SWM solution contains the following elements:

Product	Version	Build	Description
Red Bend Software Management (SWM) Center	6.2	6.2.0.12	Provides back-end management capabilities for managing firmware and software over-the-air
Red Bend Software Management (SWM) Client	5.7	5.7.0.69	Provides the client business logic for handling device management requests sent by the SWM Center.
vDirect Mobile	5.7	5.7.0.69	Provides a comprehensive toolset to build an OMA DM Client that works with any OMA DM Server.
vRapid Mobile	9.2	9.2.0.11	Generates, installs, and updates software on mobile devices.

2 What is New in this Release

This version is a Hotfix release of the FOTA and SWM Solution. This release introduces the following changes and bug fixes.

- Support running the Android compilation with the x86 instruction set.
- Integration with vRapid Mobile 9.2.

3 Solved Issues

Table 4-1: Solved Issues

SF#	RB#	Description	Component	Fixed In Version
	17628	The client process does not recover and the device cannot be updated after the device is rebooted while the SWM client process completes the DM session and waits for the DD file.	vDM	6.0.1.2 / 5.6.0.49

4 Open Issues and Known Limitations

This section lists the open issues and limitations related to this Hotfix version.

Table 5-1: Open Issues

RB#	Description	Component
N/A	N/A	N/A
